What Enhanced Legal Nurse Consulting can Provide for you.

Assist legal professionals in developing cases of medical malpractice, illness, injury and accidents quickly and cost effectively. Reviewing and summarizing medical records provides a strong case-development and foundation to the support attorney's position. We accomplish this by providing the following services**.

- Review/Screening medical cases for merit
- Defining applicable standards of care
- Defining deviations from and/or adherences to Standards of Care, both Federal and State regulations and guidelines.
- Identifying alleged causes of injuries or contributing factors.
- Review policies and procedures of facilities.
- Prepare Interrogatories.
- Identify testifying experts needed.

***NOTE: The above is only a partial list of the services provided. If you don't see what you are looking for please contact us so we may assist you.*

Why Should Customers Like Yourself Choose Us?

Our personalized services can be customized to meet your needs and are more cost effective than physicians. We are committed to providing you with a top quality work product within the confines of a deadline. We understand how time sensitive your legal practice can be and how costly it can be when information you need for a case is difficult to obtain. The quicker you get your work product the more cost effective your practice can become. Meeting your needs is our main goal in helping you with a positive outcome for your client. That is why we are committed to enhance your practice by assisting you in developing cases quickly and cost effectively.
